List available for those who need to buy hay and roughage

By TOM CONRAD

AVAILABLE HAY AND OTHER ROUGHAGES - Due to the widespread drought conditions this summer, there are many reports of hay shortages. There is however, some states and counties known to have a surplus of hay and other roughage.

ASCS is providing assistance to: 1. livestock producers in locating hay or other roughage to buy; 2. producers with excess hay or other roughage in locating buyers in need of their crop.

We have a list at the ASCS office of producers throughout the state that have hay or other roughage for sale. If you are interested in making any purchases, you should come by the office to check the list. If you have hay or other roughage that you want to sell, you may contact us and we will have your name added to the list to be advertised in the ASCS offices througout the state. The list includes name, address, telephone number, type of roughage, approximate amount and approximate price.

GRAZING OF CU ACREAGE - Farmers that are participating in the PIK and/or ARP are now eligible to cut hay from their CU acreage provided a request is filed first at the ASCS office.

Provisions are as follows: 1. The hay can be fed only to livestock owned by the applicant on August 1, 1983. 2. Only CUA operated by the applicant can be hayed. 3. Hay cannot be removed from areas designated as wildlife food plots. 4. Land shall not be hayed to the extent that the acreage is not protected from weeds and from wind or water erosion. 5. No hay cut from CU acreage may be fed to livestock purchased or leased after August 1, 1983.

FLUE TOBACCO SALES - The sixth week of auctions on Old and Middle Belt flue-cured tobacco markets was marked by improved quality and slightly better grade prices, reports the Federal-State Market News Service. Volume was heavy at most points, and Stabilization Corporation receipts remained at previous levels. Based on the August crop report, about 29 percent of this years' Type 11 production has been marketed. Producers' sales opportunity in the belt next week (Sept. 12-15) is 25,500,000 pounds (including 4 markets or 3,539,000 pounds in Marketing Area C).

Gross sales by states follow:

	Week Ending September 9, 1983		Season Through September 9, 1983	
States	Pounds	Average	Pounds	Average
Virginia	5,639,243	$177.58	21,418,420	$162.95
North Carolina	13,816,070	179.96	60,277,044	165.02
total	19,455,313	$179.03	81,795,354	$164.49

Average for the week of $179.03 was up $6.39 from the previous week. During the same number of sale days (21) last season, 105,613,000 pounds had sold for an average of $167.04 per hundred pounds. Resales this week of 1,675,626 pounds raised the season resale figure to 6,768,380. So far this season, a total of 331,432 pounds has been reported sold non-auction, broken down as follows: Florida 14,243; Georgia 46,974; South Carolina 7,814; and North Carolina 262,401 pounds.

Averages for heavy volume grades recorded small gains of $1 to $2 per hundred in most cases. Some light volume grades of leaf and cutters gained $4 to $6 from last week's levels, while several grades of lugs, primings and nondescript declined $1 to $4 per hundred. The practical top remained at $205 this week.

Quality improved as upper stalk tobacco began appearing in volume this week. Leaf grades increased to 20 percent of sales, cutters to 26 percent, lugs declined to 29 percent, and primings dropped to 11 percent of sales. Nondescript tobacco made up another 4 percent. Maturity remained about the same with 60 percent mature to ripe and 36 percent unripe or immature. Only 19 percent of sales graded good quality or better this week with 38 percent fair and 17 percent low quality.

Growers placed 16.8 percent of gross sales under loan this week. For the season, the Stabilization Corporation has received 17.7 percent of sales compared to 22.5 percent during the same period last year.

AES skill tests noted

Students in grades 3-6 at the Appomattox Elementary School have been taking Math and Reading Basic Learning Skill Tests since school opened. The results of these tests will indicate skills which the student has and has not yet mastered for his or her present grade in school.

Upon the completion of this diagnosis the teachers of the Elementary School will formulate plans and strategies for teaching all students the unmastered skills. Results of the tests will be sent home, and parents are encouraged to supplement instruction at home so the student will reach his level of proficiency.

In the spring the final testing will be administered to determine the results of teaching and learning of these basic skills in reading and math.

Please schedule a conference with your child's teacher should further explanation be necessary.

Cub join-up night set

"Pack 546 is looking forward to a great time together this coming year. Please make plans to attend on Thursday evening if you are interested in becoming a Cub Scout or if you are willing to volunteer a little time to help the local pack," said Mrs. Swanberg.

AES photo day planned

Maxward-Delmar Studios, Inc., will be at Appomattox Elementary School Sept. 22 for student photographs.

Pictures will be handled on a pre-paid basis this year. Parents and students will be able to select the portrait package best suiting their needs in advance.

Students wishing to purchase a package of portraits must bring the pre-paid amount to the photographer the day the portraits are taken.

There is no requirement to purchase a package, but students and parents are asked to remember that packages will be printed only for those students who pay in advance.

All pictures are "satisfaction guaranteed." Each student will receive information on the photo day to be sent home to parents before the picture day.

Letter to the Editor

Recreation program lauded

Letter to the Editor:

I would like to compliment those people involved with the Appomattox County Recreation program for the outstanding job they did this summer. Our family participated in baseball, soccer, swimming lessons, arts/crafts, drama, and family swim. The programs were well organized and the instructors were excellent. We wish time had permitted us to participate in more of the program.

We appreciate the work the recreation committee, recreation director, instructors, Board of Supervisors and Appomattox County Schools did to provide a recreation program for the residents of Appomattox County.

I hope people continue to enjoy participating in and supporting the new recreation program.
